

Spa Extras

Blueberry Facial

Indulge your dog with our Blueberry Facial, specially formulated to reduce tear stains and leave their fur looking fresh and clean. Add this delightful treatment to their full groom for a tear free, picture perfect finish.

Mud Skin Treatment

This treatment is truly amazing for dogs with irritants, itchy and scratchy skin and even hot spots. It is anti-allergenic, anti-inflammatory, antiseptic and anti-bacterial, helps to regulate and balance skin functions and promote healing, soothing and calm. If you feel your dog would benefit from the treatment I can guide you in the right direction for your dogs best skin treatments.

Spa Extras

Nail Treatments

Classic Nail Clip

This should ideally be done once a month, not for aesthetic purposes but for functional purposes. When nails are so long that they constantly touch the ground they exert force back into the nail bed which can be uncomfortable for the dog. (imagine wearing a too tight fitting shoe) and pressure on the toe joint.

Pawdicure

Consists of a nail clip and electric nail file which removes jagged or rough edges. Removal of excess hairs in the pads around the paw. An antiseptic cleanse and a paw balm which is moisturising, soothing and healing. The ingredients are organic beeswax, olive oil, lavender oil and tea tree.
