

Puppy University Package

My Puppy University Course is a big hit with proud new owners. This course covers your puppy for the full introduction to dog grooming.

The course includes the following:-

1 x Puppy Settling in Session

Your puppy will come to the Salon for 30 minutes. Here, Denise will play with your puppy allowing them to discover the sounds and smells of the Salon without having the pressure of the full grooming experience.

This will be such a positive association with the grooming process from the start.

2 x Puppy Grooms

Please see the puppy pamper package to see what this includes.

1 x Owner Session

In this session I will teach you how to correctly care for your dogs coat. How to properly brush and comb their coats in between grooms to avoid matting.

Your clever puppy will receive their graduation certificate and a photo of their achievements upon completion.
